

Free and confidential

Our services are free and confidential and carry no threat of enforcement or fines.

Booking a visit

Booking a visit from a Work Health and Safety Advisor is a simple process. Our Advisors will come to your workplace free of charge and at a time that suits you, and conduct a walk-through safety overview. Or if you'd prefer, our Advisors can meet with you at a coffee shop or other location that is convenient. This free and confidential service is available statewide.

Safe business is good business

Would you like free advice to help your workplace become safer and healthier, while also contributing to a healthier bottom line?

WorkCover's Work Health and Safety Advisory Service can help you to reduce workplace injuries and accidents and the associated downtime, resulting in increased productivity, safer workers and increased worker morale. And as it's a free service, it won't cost you a cent!

Workplace information sessions

Our Work Health and Safety Advisors can hold information sessions for your workers or contractors on safety topics specific to your workplace or industry. They can also host safety presentations for industry bodies and community groups.

Safety resources

To help you on your journey, our Advisors will work with you to identify safety issues and provide you with publications and other useful information to help you take control of managing safety in your workplace. This may include practical safety tools, such as workplace hazard checklists and safety worksheets, which can be applied directly to your workplace.

Talking safety together

Our helpful Work Health and Safety Advisors will come to your workplace and assist you to:

Identify

Identify hazards in your workplace

Conduct

Conduct your own risk assessment and identify opportunities for improvement
